5. Read the comprehension and answer the questions that follow :

The human brain has been on a slower evolutionary trajectory than the technology and our brains still respond to content by looking at the story to make sense out of experience. It is very important that we revisit storytelling in a serious manner and ensure that stories remain authentic human experience. Let the stories leap frog the technology and bring us to the core of human experience about collaboration and connection.

Questions :

- (i) According to author how has human brain been on ?
- (ii) What will our brain respond to ?
- (iii) How should we revisit storytelling ?
- (iv) What should stories bring us ?
